-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As recited in Claim 1, lines 6-9, it is unclear how PDSN is selected when there is only one PDSN. Claim 1 should recite "at least two PSDNs".

3. The indicated allowability of claims 1-6 is withdrawn in view of the newly discovered reference(s) to U.S. Patent Number 6,580,699. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent Number 6,580,699.

Manning teaches a wireless system including one PCF (base station controller 16) and one PDSN (10). The step of generating a record of unique PSDN ID number at the PCF (base station controller 16) is shown in Figure 3 where the base station controller 16 generates PDSN ID in flow 30 and sends it to MSC/VLR (col. 3, lines 57-65). The base station controller 16 is coupled between the mobile station (26) and the PDSN (10A or 10B). The step of selecting a PDSN in response to the PDSN ID number in the record is disclosed in col 5, lines 1-8, wherein the new BSC 18 communicates with PDSN 10 after it receives PDSN ID of PDSN 10 from the old BSC 16. In col. 5, lines 26-32, Manning teaches that the MS 26 can also actively participate in the process of selecting a PDSN based on the stored information about the prior PDSN connection (PDSN info includes PDSN ID generated by BSC 16).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Lee whose telephone number is 571-272-3130. The examiner can normally be reached on Monday to Friday from 8:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chau Nguyen can be reached on 571-571-3126. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
